

PRODUCT DESCRIPTION

Recessed downlighter equipped with a LEDmodule especially to enlighten several food products. There's a choice between 'fish' to light up fish products, 'gold' for bakery goods and 'gold+' for rather crusty bakery goods such as croissants and baguettes. The cannon 'meat+' provides a highly red color which is ideal for the presentation of meat. Its relative 'fresh meat' is suitable to use for meat in the counter.

Aluminium fixture, white or black powder coated, with several possible reflectors (16°, 26°, 42°) Available in two different versions, the high efficiency (700mA) or the high output (1750mA) version.

Standard equipped with PC-cover for food environment and torsion springs.
