

# °SO1

The design of this large-scaled lamp is pure and back to basic, therefore the SO1 really leaves nobody untouched. Made in PE (polyethylene) by rotational moulding, this large lamp (height 1m40) can be used inside as well as outside.

Built-in into ceiling or wall, lying on the floor or just hanging in the room.

Outside used as street light (with a post) or as lighting accent in the garden.

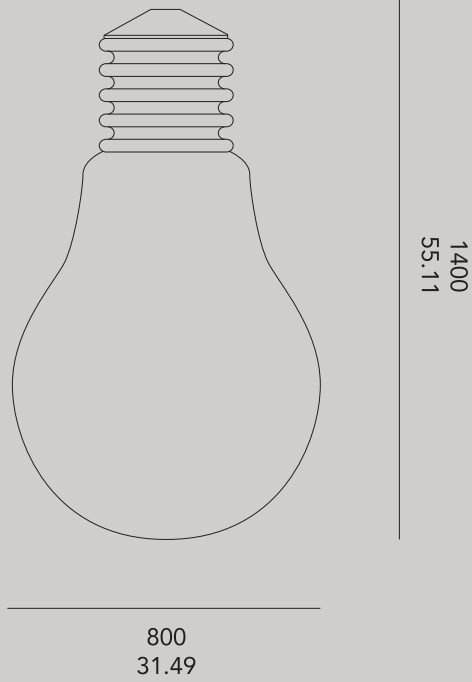

The use of this lighting-object will give an extra accent to rooms, spaces, streets and public parcs.

Design by Sara Olaerts
