rond 2.0 - 2022 - slide 3

one module,
endless possibilities
—

multifit

fits in wood, veneer and stone

+ removable

+ freely rotatable

+ wide range of finishes

multifit

the ultimate solution for furniture applications. With an outside diameter of only 52mm, multifit is the world's sleekest removable socket.
Requires a Ø48 hole and an 8-30mm panel thickness.
Flush or with a small trim? The choice is yours.

retrofit

fits in universal Ø68 junction boxes

+ removable

+ every 45° rotatable

+ wide range of finishes

retrofit

the ultimate solution for universal junction boxes, round or square. For both new build and renovations. Available trimless or with a small trim, for easy plastering. Electrical connections remain accessible after plastering. Removable by tool.

easyfit

fits in solid, plastered walls

+ removable

+ every 45° rotatable

+ wide range of finishes

easyfit

the ultimate solution for brick walls. The Ø130 rond plaster box allows up to 3 times faster installation. Thanks to the all-new rond 2.0 module, electrical connections now remain accessible after plastering. Available trimless or with a small trim, for easy plastering. Same design, new possibilities.
